

VERTICAL STORAGE TANKS

The Vertical Storage Tank series are constructed of rotationally molded high-density polyethylene plastic tanks capable of holding up to 16,500 gallons. Tanks are available in both single wall and double wall units, which offer a 110% containment system.

FEATURES

- ✓ Available in 1.35, 1.5, or 1.9 Specific Gravities
Reduces the bulging associated with high specific gravity liquids
- ✓ High-Density UV Stabilized, Polyethylene Plastic
Exceptional protection from the sun deterioration for extended life
- ✓ Extra Large 16" Man-Way
Allows for easy access to the tank for cleaning and maintenance
- ✓ Optional Double Wall Tank
Meets OSHA liquid storage standards with 110% containment system
- ✓ Optional Integrated Lifting Lugs
Provide tank points for easy installation and moving
- ✓ Designed Mounting Surfaces
Easily mount valves and fittings to flat tank surfaces
- ✓ Optional Stainless Steel Tank Fittings and Ball Valve
Prevents possible breaking points associated with plastic fittings which could create a liquid spill
- ✓ Optional Single Wall Gallon Markers
Easily read tank level without electronic measurements
- ✓ Corrosion Proof Material
Capable of storing corrosive chemicals typically associated with anti-icing and industrial applications
