

TANK BOSS

Tank Boss provides reliable, real-time monitoring for brine, additives, and other chemicals using advanced radar-based sensing. Seamlessly integrated with the web-based PreCise MRM platform, it gives you instant access to accurate tank levels from anywhere—even remote locations.

Designed for demanding environments, Tank Boss helps you prevent runouts, reduce waste, and make smarter operational decisions with confidence.

FEATURES

- ✓ **Chemical Monitoring**
Monitor brine and deicing additives with confidence
- ✓ **Cellular Connectivity**
Integration with the web-based PreCise MRM platform
- ✓ **Tank Level Alerts**
Receive low-level notifications via email or text
