

BRINE BOSS SB850

This mobile brine making unit utilizes the Brine Boss platform for automated brine production at a 23.3% concentration with no need to transport finished brine. It's compact, trailer-mounted design allows users to easily travel to remote locations, reducing storage needs and operational footprint. Compatible with any existing tank farm, this mobile solution makes brine production more cost-effective, accessible, and efficient.

FEATURES

- ✓ Hot dipped galvanized steel trailer
- ✓ Pressure treated wood decking
- ✓ 2 5/16" ball hitch
- ✓ Easily towed by half ton pickup
- ✓ Uses **NEW** series SB800 brine maker
- ✓ Throughput capacity up to 7,000 gph
- ✓ 5.2 cubic yard hopper capacity
- ✓ 7 cubic yard capacity with optional hopper extension
- ✓ 9" x 15" hopper tank cleanout
- ✓ 3" holding tank cleanout
- ✓ 304 10-gauge construction
- ✓ 2-degree slope in hopper & holding tank for easy clean
- ✓ 500 gallon holding tank capacity
- ✓ Temperature compensated conductivity measurement
- ✓ Plug into customer supplied power source for operation

PRODUCT SPECIFICATIONS

Single-phase power requirements.....	230 VAC 23 FLA @ 60 Hz
Overall dimensions.....	280"L 86"H 103" W
Minimum freshwater flow.....	20gpm
Minimum freshwater dynamic pressure.....	15psi
Maximum freshwater static pressure.....	80psi
