

The Brine Boss Eco is our more economical version of our popular Brine Boss®. It is designed for use with the SB600 or SCB1400-SS Salt Brine Production Systems.

When coupled with our up-flow brine process, you will be able to produce cleaner, more consistent brine faster than ever before.

The stand alone cabinet is ideal for new installations, or it can easily be placed into service for use with any existing VariTech brine production system.

Brine Boss Eco™

FEATURES

- **Digital HMI Screen**
Easy to reference screen allows for live salinity readings
- **Administer Security Protection**
Ensures that target salinity and system settings can only be accessed through password verification
- **Heavy Duty Pump and Plumbing Components**
Stainless steel centrifugal pump coupled to a TEFC motor and poly housed ball valves with stainless steel balls will provide years of dependable use
- **Temperature Compensated Brine Production**
Our interface monitors water temperature to make sure the brine that is produced is consistent each and every time
